## Chapter 1. Executive Summary

### 1.1 PROJECT BACKGROUND

The Odisha Works Department (OWD) has a medium to long-term comprehensive programme to rehabilitate, upgrade and expand the road network throughout the state to improve accessibility, connectivity and enhance the overall development. It is the pre-eminent state level road authority in Odisha which deals with issues relating to Feasibility Study and preparation of Detailed Project Report including the Route Selection, even for relatively low volume roads.

The Government of Odisha has secured a loan from International Bank for Reconstruction and Development (The World Bank) towards the cost of Widening and Strengthening of existing Jagatpur- Chandbali Road Project ( 106 km).

Jagatpur-Chandbali Road Project is part of 825 km of roads under Phase-I which aims at promoting trade and regional integration between districts by improving transport communication. The project road Jagatpur-Chandbali is a part of the Phase-I road development, which was built several years ago with two lane configuration and currently serves moderate level of traffic. The project involves widening of the existing road which has an average carriageway width of 5.5 m to 6.8 m and 1.5 m . Earthen shoulder on both sides, to a 7.0 m carriageway and 2.5 m shoulders on both sides in flat and rolling sections. Later, it is revised to 7.0 m carriageway, 1.5 m hard shoulders and 1.0 m earthen shoulders on either side. The expected outcome of the project include reduced transportation time of goods and better connectivity between districts along with improved safety standards; reduced transit time for import and export goods via port

The Jagatpur-Chandbali road was divided into two Packages for the purpose of improvement.1st package from Jagatpur to Duhuria and 2nd package from Duhuria to Chandbali. After termination of the Contract of $1^{\text {st }}$ package, it is divided into two packages, viz., Jagatpur to Nischintakoli (P04A1) and Nischintakoli to Duhuria (P04A2). 3rd package is from Duhuria to Chandbali (P04B)

### 1.2 THE PROJECT

The Duhuria - Chandabali section km 49/00 to km 99/00 (SH9A) and km 45/00 to km 51/500 (SH9) which is a part of Jagatpur - Kendrapada - Chandbali - Bhadrak 152 km project corridor. The road section Duhuria - Chandabali starts from Chainage km 49/00 at Duhuria and ends at km 106/00 at Chandbali. Kendrapada is the headquarter of Kendrapara district. There are in total 14 numbers of major and minor bridges in Duhuria - Chandbali section. Along the project road there are in total 164 culverts and 36 reptile passes. About $21 \%$ of the road length passes through built up area.

The total length of the project road is 56.500 Km . the road passes completely through plain terrain. Major stretch of the road is located in the District of Kendrapara. This stretch passes through major human settlements at Kendrapara.

## Chapter 6. Lessons Learnt

The following events have affected the completion schedule of the project.

### 6.1 LAND ACQUISITION AND REMOV AL OF ENCUBRANCES

The removal of encumbrances and utility shifting has affected the project. All the Sections have been handed over to the Contractor, but, encumbrances still exist.

### 6.2 BORROW AREAS AND STONE QUARRIES

The following borrow areas and stone quarry are in operation,

## Embankment soil

Barundiha (Km 89+750LHS)

## Subgrade \& Embankment soil

Tanar (Km 57+000 LHS), Gaidua (Km 57+186 LHS), Baro (Km 60+100 LHS), Nilakantapur (Km $70+000$ RHS), Kunwarpur (Km 75+186 RHS), Nihali (Km 83+380 RHS), Padampur (Km 86+000 LHS).

## Embankment sand

NimpuraSasan (Km 70+100 RHS), Kunwarpur (Km 75+180 RHS), Kharasrota (Km 89+100 LHS) and Kalaspur (Km 84+080 LHS)

## Stone quarry

Anjira BSQ No. 10.

### 6.3 TIMELY MOBILISATION OF MAN AND MACHINERIES

All the plants Crusher, Hot Mix Plant, Wet Mix Plant and concrete Batching Plant are in operation with statutory compliance of "Consent to Establish"' (CTE) and "Consent to Operate" (CTO).Other allied machineries are in operation.

Skilled supporting staff and labour gangs of Contractor are insufficient. The vacancies in Key Professional are not filled.

Additional new Soil Excavators 13 nos. and Tippers ( 25 MT) 30 nos have been mobilised by Contractor during this quarter.

## Chapter 7. limportant Events During the Quarter

## Visits:

1. Mr. Manoranjan Misra, EE, PMU along with Mr. G.P. Sahoo, Team Leader visited the site on $21^{\text {st July }} 2017$.

## .Meetings:

1) Collector Kendrapara along with EE (R \& $B$ ) Kendrapara has taken the review meeting on dated $06^{\text {th }}$ July $2017 \& 15^{\text {th }}$ September 2017 at the Res. Office of Collector. Agenda discussed are the progress of work and the maintenance of Existing Road.
2) Review meeting taken by EE (R \& B), Kendrapara on $18^{\text {th }}$ September 2017. REs of P04B\& P04A1\& A2 and PM (DPJ-NKC JV) were present in the meeting.
